

## RATIONING: SHOE CARDS ARE COMING

Due to the delay of shoe ration certificates from Kansas City, only a limited number are available and only those in urgent need are accommodated at the present, stated J. F. Rains, assistant Project director. Certificates will be delivered to block offices on Tuesdays and Fridays after application at ad building 2.

About a thousand certificates have been issued up to date, and after a sufficient number has arrived they will be distributed to the blocks with the respective managers being responsible for their distribution.

Rains also requested that persons leaving the Center file for their food ration card ahead of their scheduled departure since sufficient time is required for necessary issuance.

He concluded that some applications require as long as two weeks due to the process of contacting local boards in California.

## FORM 126!

According to WRA Director Dillon S. Myer, all evacuees reaching the age of 17 should be registered for leave clearance on form WRA 126 (revised) regardless of their sex or citizenship. Registration should take place as soon as possible after the individual reaches his or her 17th birthday.

All applicants are requested to see Herschel Abbott, leave officer, in building 1.

## INFORMATION ON PERMITS AND CLEARANCES OUTLINED

The following procedure for leaving the Center for outside jobs was outlined by E. B. Moulton, leave officer.

Upon approval of the leave clearance application by the WRA office in Washington, D.C., the resident will be notified (Form WRA-131). This notice is NOT a permit to leave the Rohwer relocation center.

When the resident accepts an offer of employment, he will take the written evidence of the offer to Moulton, officer, and will complete an application for indefinite leave (Form WRA-130).

If the offer has been submitted by a WRA reloca-

tion supervisor, the Project Director may issue an indefinite leave permit if the applicant has complied with all leave regulations.

If the offer has not been submitted by a WRA relocation supervisor, the application for indefinite leave together with the written evidence of employment will be transmitted to the WRA office in Washington, D.C. Upon approval by that office, the Center Leave officer will be advised, and the applicant will be notified (Form WRA-132). This notice is NOT a permit to leave the Rohwer relocation center.

Aratani will transfer to Gila relocation center, Ariz., next week.

Both reporters were indispensable. Working for the news and the sports department, they have compiled a brilliant record of accurate and interesting news writing.

In token of their fine work they were made Editors for this issue.

# BLOCKED NATIONALS OUT FROM CO-OP ENTERPRISES

Rohwer Cooperative Enterprises announced yesterday that all "blocked nationals" would be barred from membership in the Co-op.

"Blocked nationals" are aliens whose capital has been frozen since the outbreak of the war. Family members who are not in this category are still eligible.

Previously, it was decided to disqualify any "blocked nationals" from becoming delegates, although they were entitled to membership.

The reason was that the violation of the trading with the enemy act was feared and the probable freezing of the Co-op funds if they were elected a delegate or a member of the Board of Directors.

Contacting other centers, the Co-op learned that they also barred "blocked nationals" from membership in the Co-op. This, coupled with the opinion of Project Attorney Jack S. Curtis who expressed that "even blocked nationals among membership is dangerous," precipitated the new ruling.

Since as yet no certificates have been issued, all "blocked nationals" are requested to bring in their receipts, cancel their application and receive their refunds immediately.

# POISONOUS REPTILES

Snakes are easily confused with one another, and the question as to whether a certain one is poisonous or harmless arises again and again.

Out of about 205 species and varieties of snakes that occur in the United States and lower California, less than 15 per cent can be considered "dangerous to man."

The poisonous snakes in the United States can be grouped into two families, ELAPIDAE or the coral or harlequin snakes; and CROTALIDAE, or the "pit vipers."

The first family, the

smooth-scaled snakes, is characterized by brilliant colors; markings consisting of broad alternating rings of crimson and black, separated from each other by narrower yellow rings; black bands as broad as the crimson; a pair of short, erect, longitudinally grooved fangs in front of the upper jaw; and head as wide as the neck.

The other, the keel-scaled snakes, is characterized by duller colors; markings not forming regular alternating bands, but consisting of blotches, diamonds or incomplete bands; a pair of long, hollow, freely

movable fangs that fold back against the roof of the mouth when jaws are closed; head wider than the neck; deep pit on face between nostril and eye; scales on upper parts keeled; and pupils elliptical in shape, vertical in position.

In the family ELAPIDAE are two species, *Micrurus Fulvius*, the coral or harlequin snake, and *Micruroides Euryxanthus*, the Sonoran coral snake.

The family CROTALIDAE is divided into snakes with rattlers and those without. The copperheads, highland moccasins, chumheads, poplar leaf, or deaf adder (*Agkistrodon Mokusen*) and the cotton-mouth water moccasin (*Agkistrodon Piscivorus*) are without rattlers.

Snakes with rattlers and with a single large scale on top of head between supracocular scales are the ground or pigmy rattle snake (*Sistrurus Miliarius*) and the massasauga (*Sistrurus Catenatus*).

Snakes with rattlers and with many scales on top of head include all the large rattlesnakes.

## GOV. OK'S PROJECT

According to an article in the "Arkansas Gazette," importation of Japanese labor into Kansas was approved today by Governor Schoeppel. He reported a number of requests for permission to use labor from a Colorado internment camp and said, "Where it is satisfactory to the local communities, I see no rea-

son why these requests shouldn't be granted. I'm going to approve them."

"The Santa Fe railway has asked permission to employ 4000 to 5000 Japanese on extra gangs," the governor said, "and Southwestern Kansas war project contractors are in the market for 1000 to 15,000 more."

## RED CROSS RESPONSE

Current reports trickling in from all over the United States, seem to indicate that the all-time high of \$125,000,000 for the American Red Cross will be a pleasant reality. This nation-wide response to the call for aid by this organization is a tribute to its numerous past achievements.

The local Red Cross mythical (conditions being unfavorable for setting any figure) quota has already grossed the Rohwer chapter, a sum of over \$2880, and untallied contributions may enable the Center unit to attain the prodigious figure of \$3000.

Generous donations were given by the administrative personnel, but the bulk of the contributions were made by the evacuee residents. Individual dollars from the \$12 to \$19 monthly paychecks made up a major portion of the total.

With stratospheric wages prevailing on the outside, membership fees of \$1 outwardly appear insignificant, but for the Center inhabitants, they represent one and a half days' work. Yet \$2455.18 have been raised and 2200 members have been registered in Rohwer's initial Red Cross drive, while an earlier Junior Red Cross drive brought in \$136.80.

Barraack windows through the Center are adorned with Red Cross stickers in nearly solid array, showing that California Japanese have not let the call of this great mercy organization fall on deaf ears.

## ROYAL DUKES SHATTER GAELS' UNDEFEATED RECORD

The fighting Los Angeles Royal Dukes, who were hopelessly blasted from the championship picture last week by the crosstown Bojangles, retaliated in brilliant cage fashion Sunday to whip the undefeated Stockton Gaels, 37-33, before a jam-packed crowd at the high school field.

The star-studded Gaels' defeat threw the National league's homestretch into a three-way tie of the Bojangles, Lodi and Gaels, all of whom have a setback apiece.

Playing their best game of the season, the Royal Dukes, with sharpshooting George Iseri, Ken Hirata and Jimmy Kusumoto zipping the hoop from all angles, wiped out a 12-8 first period deficit and then managed to stave off a last half Gaels' rally that came within 4 points of deadlocking the game.

## Tosh Ihara Scores 26 Pts.; Bojangles Win

Lanky, easy-going Tosh Ihara never lost his smile as he led the Bojangles to a 65-37 victory over the Mirror Twins & Co. and one notch closer to the National league pennant.

The Bojangles got off to a slow start but gained momentum with every moment (Continued on page 8)

### MEETING

An important softball managers' meeting will be held Friday night at PS hall 27 from 7:30 p.m., announced Shiro Mizufuka.

League rules and regulations will be formulated, so all managers were requested to attend without fail.

Yet it was cool Jimmy Kusumoto's 4 out of 5 gift points in the dramatic second half that proved to be the margin of victory for the southern five. He also slipped in four lightning, under-the-basket shots and a free throw in the first half to walk off with the game's scoring parade.

Toru Hirose and Kiyo Shimasaki, former Stockton JC ace, led the Gaels' futile rally with 10 and 8 points, respectively. Shimasaki with his spectacular long distance shooting had the game in an uproar in the final half when he unloaded four beauties, one a breath-taking, mid-court swisher that closed the gap to within a point of tying the Dukes.

Other first round results were:

Blk 1, 5 - Blk 32, 4

# BLOCK 5 GIRLS SWAMP PREPS FOR SECOND WIN

The girls from Block 5 made it two straight in the current Girls' Basketball league when they dumped the Preps, 36-26, in the only girls' game played over the week-end. Kimi Miyago spearheaded the fivers' attack and plunked 18 points through the bucket by way of reminding the Spinners that they are not to be trifled with.

# Ihara Scores 26 Points

(Continued from page 7) of the game. The half-time score read 27-21, but the A-Jays fell apart in the second half as the Bojangle juggernaut shifted into high to win going away.

Tosh enjoyed a field day as he swished the netting for 26 points. The Mirror Twins were stopped cold and made only 22 points between them, Tak Kawagoe making 16, while Hiro Kayasuga was held to only 6 digits.

# Royal Dukes' Onslaught Wins

(Continued from page 7) Playing a brilliant, defensive game was Icy Nasana, Dukes' handsome guard, whose backboard control kept the Gaels from handling the rebounds throughout the tight battle.

# MIRROR TWINS HOLD ON TO COMFORTABLE LEAD

## Tosh Ihara Passes Ken Hirata

The eagle-eyed Mirror Twins lead the individual scoring race far ahead of their competitors.

Hiro Kayasuga had more points under his belt, 118, than Tak Kawagoe, but Tak's 103 points made in only 5 games give him the highest average per game, a phenomenal 20.6.

With his 26 points made against the A-Jays, Tosh Ihara outpointed Ken Hirata and climbed within scoring reach of the A-Jays' colorful Mirror Twins.
